To the management of DIGITAL TRUST L.L.C.

Amstelveen, 30 December 2021

Subject: Independent Auditor's Report WebTrust for CAs

We have been engaged, in a reasonable assurance engagement, to report on DIGITAL TRUST L.L.C.'s (DigitalTrust) management's assertion that for its Certification Authority (CA) operations in the United Arab Emirates, throughout the period 1 October 2020 through 30 September 2021 for its CA as enumerated in Attachment A, DigitalTrust has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in its:
 - [Certification Practice Statement, version 1.12](#), dated April 2020;
 - [Certification Practice Statement, version 1.13](#), dated May 2021.
- maintained effective controls to provide reasonable assurance that:
 - DigitalTrust's Certification Practice Statement is consistent with its Certificate Policy – the UAE National Root Certification Authority [Certificate Policy, version 1.16](#), dated January 2021;
 - DigitalTrust provides its services in accordance with its Certificate Policy and Certification Practice Statement;
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
 - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
 - subscriber information is properly authenticated (for the registration activities performed by DigitalTrust); and
 - subordinate CA certificate requests are accurate, authenticated, and approved
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorized individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity.

Subject: *Independent Auditor's Report WebTrust for CAs*
Amstelveen, 30 December 2021

in accordance with the [WebTrust Services Principles and Criteria for Certification Authorities, version 2.2.1 – November 2020](#).

DigitalTrust does not escrow its CA keys, does not provide Integrated Circuit Card (ICC) lifecycle management, and does not provide certificate suspension services. Accordingly, our procedures did not extend to controls that would address those criteria.

Certification Authority's responsibilities

DigitalTrust's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.1.

Our independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. Therefore, we are independent of DigitalTrust and complied with other ethical requirements in accordance with the Code of Ethics of NOREA (IT Auditors Association in The Netherlands) and the Code of Ethics for Professional Accountants, a regulation with respect to independence of the NBA, Royal Netherlands Institute of Chartered Accountants.

We apply the International Standard on Quality Control 1, and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements. We also apply the Regulations for Quality management systems of the NBA and, accordingly, maintain a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements (ISAE) 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board and the related Dutch Directive 3000A 'Attestation engagements', as issued by NOREA.

These standards require that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

1. obtaining an understanding of DigitalTrust's key and certificate lifecycle management business practices and its controls over key and certificate integrity, over the authenticity and confidentiality of subscriber and relying party information, over the continuity of key and

*Subject: Independent Auditor's Report WebTrust for CAs
Amstelveen, 30 December 2021*

certificate lifecycle management operations and over development, maintenance and operation of systems integrity;

2. selectively testing transactions executed in accordance with disclosed key and certificate lifecycle management business practices;
3. testing and evaluating the operating effectiveness of the controls; and
4. performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at DigitalTrust and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

Because of the nature and inherent limitations of controls, DigitalTrust's ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

Opinion

In our opinion, throughout the period 1 October 2020 through 30 September 2021, DigitalTrust management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.1.

This report does not include any representation as to the quality of DigitalTrust's services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities v2.2.1, nor the suitability of any of DigitalTrust' services for any customer's intended purpose.

*Subject: Independent Auditor's Report WebTrust for CAs
Amstelveen, 30 December 2021*

Use of the WebTrust seal

DigitalTrust's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

The management of DigitalTrust is responsible for establishing and maintaining effective controls over its CA operations, including its CA business practices disclosure on its website, CA business practices management, CA environmental controls, CA key lifecycle management controls, subscriber key lifecycle management controls, certificate lifecycle management controls, and subordinate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even effective controls can provide only reasonable assurance with respect to DigitalTrust's Certificate Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

The management of DigitalTrust has assessed the design of controls over its CA Services. Based on that assessment, in DigitalTrust management's opinion, in providing its Certification Authority (CA) services at Abu Dhabi and Dubai, United Arab Emirates, throughout the period 1 October 2020 to 30 September 2021, DigitalTrust has

- Disclosed its business, key lifecycle management, certificate lifecycle management and CA environmental control practices in its Certification Practice Statement, version 1.12, dated April 2020 and Certification Practice Statement, version 1.13, dated May 2021 on the website of Digital Trust at <https://ca.digitaltrust.ae/CPS/index.html>, and
- maintained effective controls to provide reasonable assurance that
 - Digital Trust's Certification Practice Statement is consistent with its Certificate Policy – the UAE National Root Certification Authority Certificate Policy, version 1.6, dated January 2021 on the website of Digital Trust at <https://ca.digitaltrust.ae/CPS/index.html>
- maintained effective controls to provide reasonable assurance that
 - the integrity of keys and certificates it manages is established and protected throughout their life cycles;
 - the integrity of subscriber keys and certificates it manages is established and protected throughout their life cycles;
 - Subscriber information is properly authenticated (for the registration activities performed by DigitalTrust); and
 - subordinate CA certificate requests are accurate, authenticated, and approved.
- maintained effective controls to provide reasonable assurance that

- logical and physical access to CA systems and data is restricted to authorized individuals;
- the continuity of key and certificate management operations is maintained; and
- CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity.

based on the [WebTrust® Principles and Criteria for Certification Authorities - Version 2.2.1 - November 2020](#) including the following

CA BUSINESS PRACTICES DISCLOSURE

- Certification Practice Statement (CPS)
- Certificate Policy (CP)

CA BUSINESS PRACTICES MANAGEMENT
